

# WHY SWITCH YOUR IT TO OFFICE EASY?

(Managed Services with WorkMagic)

It's a common question we hear everyday. Why? Because most don't see IT as an issue until it is one. Everyone has a cousin to plug in your computer. When there is an IT problem, it is often overwhelming, overtaking every other aspect of your business. The other problem is that the fix never really happens. Most IT guys are part of the 90% club. Not completely resolving the technical issues.

That's why we love the **Office Easy** model. As an IT managed services provider, we know the problems that you could be facing. So, why switch your IT to **Office Easy**? We'll show you.

## Is Your Computer Turned On?

At one time or another, we've all been on those troubleshooting tech calls. Is your computer plugged into the network? Are you connected to the WiFi? Can we do a remote session? With every new tech you call, it feels like you're starting over.

The problem is, they really don't know your system. How could they? They probably didn't set it up and have no idea what kind of rigged wiring and infrastructure your IT guy may have created for your office. What security software do they have? The computer they say is slow.

Most businesses do this. They use capital expenses to buy a bunch of computers for the office and assume they'll work like a charm. But it gets complicated. Especially when security is involved.

Why Switch Your IT to **Office Easy**?

## Just Think of this:

## 69% of surveyed IT decision-makers

now believe that A.I. and Cyber Security need to be the main forces in driving operational excellence in business technology.

- **Gartner**

If IT isn't driving your company's innovation, if you aren't using to your technology to meet your business goals, then you will be falling short.

**Office Easy** can change all that. **Office Easy** makes your technology work toward your business goals, not the other way around. Whatever industries you want to work within, however you want to improve (even those "where do you see yourself in five years" questions), **Office Easy** will drive you there.

## Shrug Off Responsibility

When you have generic IT support, the weight is all on your shoulders. Where's the need for speedy work when they get paid by the hour? When every call to IT Support will translates to billable hours, that really puts you in a serious precarious position. At that point, you would only call in the case of an emergency. And who would blame you?

*With **Office Easy**, you've essentially turned your IT budget into flat-rate IT."*

**Office Easy** takes the burden off of your company. No need to wait for a technical emergency before you pick up the phone. As a partner in your business, we know your business, your needs, your goals, we are compelled to deliver you the best solutions for your needs.

## Flatline Your IT Budget

One of the biggest problems with IT is the unpredictability in spending. Every call results in an unexpected invoice that could damage any headway you've made in your profits for that quarter.

With **Office Easy** you turn your technology budget into flat-rate IT. With a predictable monthly bill, you're never surprised with an IT invoice. Now, you can plan out growth months and years in advance.

**Office Easy** provides you a set fee each month. Now, we resolve technology issues as quickly as possible - they are our top priority.

## Pro Active, Pro Support

With **Office Easy**, WorkMagic takes pride in efficiently solving problems. WorkMagic provides you with flexibility in selecting the right level of operations assistance, whether you are migrating to the cloud or just need extra help with monitoring, incidents, or patch management.
